

Michael A. Rogawski, MD, PhD

Michael A. Rogawski, MD, PhD, is professor and chair of the Department of Neurology at the University of California, Davis. Dr. Rogawski's research encompasses molecular and cellular studies, animal models of epilepsy, and clinical studies on new epilepsy treatment approaches. He has received numerous awards and been a member of the board of directors of the American Epilepsy Society and the American Society for Experimental NeuroTherapeutics. Dr. Rogawski has served on the editorial boards of many medical journals, and he is currently a section editor of *Neuropharmacology*, co-editor (and co-founder) of *Epilepsy Currents*, and associate editor of *Neurotherapeutics*. He has served as a member and chair of scientific review panels for the National Institutes of Health, the Office of Congressionally Directed Medical Research Programs, and the Food and Drug Administration.
